

**Application form for a Society to join
the Asian Pacific Association for Biomechanics (APAB)**

Date: August 30th, 2015

- Country: Taiwan
- Name of the Society: Taiwanese Society of Biomechanics
(Web site) http://www.tsb-web.org.tw/
- Representative person: Jaw-Lin Wang
(E-mail) jlwang@ntu.edu.tw

• **The history of the society**

Taiwanese Society of Biomechanics (TSB) was established in 1992 by Professor You-Li Chou of Institute of Biomedical Engineering, National Cheng Kung University. The mission of TSB is to promote basic research in biomechanics and its applications to orthopaedics, dental, neural engineering, human movement analysis, posture control, physical therapy, occupational therapy, foot orthosis, sport science and techniques. Members are experts in above area. The main activity of the society include: annual meeting, biomechanics workshop, regional and international conference. TSB is one of the initiating members of APAB when she was established in 2005. Incorporating with Taiwanese Society of Sport Biomechanics, TSB has organized ISB 2007 congress at Taipei.

• **The membership of the society**

Currently, TSB has 270 active members who are experts in orthopaedics, dental, neural engineering, human movement analysis, posture control, physical therapy, occupational therapy, foot orthosis, sport science and techniques.

• **The benefits of association to APAB**

Promote basic research in biomechanics and international corporations between members of TSB and members of other societies associated with APAB.

• **Relationship to Biomechanics**

Research, education and application of biomechanics

Approved by  Date: October 6, 2015
