

# CJK-OSM6

The 6th China-Japan-Korea Joint Symposium  
on Optimization of Structural and Mechanical Systems

June 22-25, 2010  
Kyoto, Japan

## Welcome Message

On behalf of the organizing committee of the 6th CJK-OSM, we would like to announce the Call for Papers.

CJK-OSM (China-Japan-Korea Joint Symposium on Optimization of Structural and Mechanical Systems) is a series of biennial symposia which have stimulated and promoted researches and interests in all aspects of optimization of structures and mechanical systems. Following the previous CJK-OSMs (the 1st Symposium took place in Xian, China in 1999, the 2nd one in Busan, Korea in 2002, the 3rd in Kanazawa, Japan in 2004, the 4th in Kunming, China in 2006, and the 5th in Jeju, Korea in 2008), CJK-OSM6 will be held at the Kyoto Garden Palace Hotel in Kyoto, Japan, June 22-25, 2010.

From the 5th Symposium the CJK-OSM has been recognized as an official conference sponsored by ISSMO (International Society of Structural and Multidisciplinary Optimization). Although the title of CJK is not yet changed, we are most happy to welcome people not only from three initiating countries but also from any other areas of the world.

## Venue

The Symposium will be held at the Kyoto Garden Palace Hotel in Kyoto. The conference site is located in the city, near Kyoto Gyoen National Park (Kyoto Imperial Palace) and many famous historic spots. It is easily accessible through public transportation (metro or bus lines) from the Kyoto Station. Participants will have the possibility to reserve their accommodations at the conference site at the special rate.
