[email3, email4]@address

### ABSTRACT

The paper should be formatted according to the style guidelines presented in this template. The title of the paper should be typed in 12pt bold font and centered. It should be separated from the author names by 14pt space. Author names should be typed in bold font, in addition, the name of the presenting author should be underlined. It should be separated from the affiliations by 16pt space. Affiliations should be typed in general formatting style, centered within a corresponding bounding box. The abstract part of the full paper should be formatted as one paragraph not longer than 300 words and it should fit to the title page. The abstract begins with the "ABSTRACT" header typed in bold 10pt font and is separated from the affiliations by 18pt space. The abstract text should be separated from the header by 10pt space. Title, affiliations and abstract have to fit to the title page. A maximum of 5 keywords have to be added after the abstract.

**Keywords:** Keyword 1, Keyword 2, Keyword 3, Keyword 4, Keyword 5.

### 1. INTRODUCTION

All text should be written in the Times New Roman font. General text should be justified and divided into logical paragraphs separated by 10pt spaces. Single line spaces are required. All section headers except abstract and references header should be numbered using Arabic numbers with a trailing dot. The headers are separated from the last preceding paragraph by 24pt space and the following text by 10pt space. Top level headers should be typed in capital characters. Subsections should be numbered using multilevel numbering. A maximum of two sublevels is allowed. Subheaders should be typed in normal word case. A font size of 10pt should be used if not specified otherwise. The subsection headers are separated from the last preceding paragraph by 12pt space and the following text by 6pt space, they should be typed in bold characters. A font size of 10pt should be used if not specified otherwise.

### 2. GENERAL INSTRUCTIONS

The paper must be written in English. The total length of the paper may not exceed **10 pages**. The page margins should be 30mm. The paper used should have the size 210 x 297mm which is the European A4 size. It is suggested to use styles for formatting, automatic reference and figure numbering to avoid editorial errors. To avoid compatibility problems it is advised to use only the Latin alphabet and underscore character in the file name.

#### 2.1. Equations

Equations must be numbered consecutively using right flushed Arabic numbers in brackets as shown in Equation (1)

$$\mathbf{M}^i \cdot \dot{\mathbf{z}}_{II}^i = \mathbf{h}_a^i = \mathbf{h}_\omega^i + \mathbf{h}_e^i + \mathbf{h}_g^i + \mathbf{h}_p^i + \mathbf{h}_d^i. \quad (1)$$

All symbols of the equation should be explained. The equations can be build with the Microsoft Equation Editor using the following sizes: Full 11pt, Subscript/Superscript 7pt, Sub-Subscript/Superscript 5pt, Symbols 16pt and Sub-Symbols 11pt.

## 2.2. Figures and tables

Figures and graphs must be included using the same style as shown in Figure 1. The contents of the Figure should be explained in its caption.

Figure 1: Example of figure and its caption

A resolution of 300dpi for pictures and 600dpi for line art is suggested, 1px wide lines in figures should be avoided as they may become invisible in print. There is no limit on the amount of figures as long as the total length of the paper is within the specified limit. Figures should be centered on the page.

Tables must be included using the same style as shown in Table 1. The contents of the table should be explained in its header. Tables should be centered.

**Table 1.** Example of a table and its header.

T11	T12	T13	T14
T21	T22	T23	T24

## 2.3. References

References should be sorted in alphabetical order as shown below, where [1] exemplifies the case of a textbook, [2] is an article in a journal and [3] is an article in conference proceedings.

## 3. SUBMISSION OF THE FULL PAPER

The submission of full paper is optional. Authors are requested to upload a full paper of a maximum length of 10 pages including references and figures no later than April 30, 2016, to the conference web page <http://www.jsme.or.jp/dmc/acmd2016>. The uploaded file must be in the PDF format and the file size should be below the limit of **5MB**. When creating the PDF, please make sure to use A4 as paper size. Before submitting your paper, check that it is according to the conference style guidelines presented in this template. After successful submission the author will receive a submission confirmation email.

#### **4. CONCLUSIONS**

We are looking forward to meeting you at the conference in Kanazawa, Japan.
