Dear Yoichiro Matsumoto (President, Japan Society of Mechanical Engineers)

We have been watching with concern, here in the UK, as the news unfolds of the devastation that has occurred following the earthquake, tsunami and resulting power station blasts which have occurred in Japan in the last few days.

We want you to know that our thoughts are very much with you and all your members at this deeply tragic time.

If there is anything that we can do to help from here, you only have to ask.

Best wishes

John Wood
