Publication Charges

This journal is an Open Access publication and an article-processing charge (APC) is levied on articles that are accepted for publication by the Editors.

To proceed, please click View Publication Charges which will take you to another window in order to select the relevant payment option.

Once the payment option has been confirmed you will return to this page where you must select the Proceed button below in order to complete your submission.

If your institution, society or organisation has an open access agreement with Springer Nature, the APC amount may be wholly or partly covered by that agreement. For an article to be eligible to be a part of the institutional agreement, the submitting author must be affiliated with the institution.

We provide a free open access funding support service to help authors discover and apply for article processing charge funding. Learn more [here](#).

APC waivers or discounts are granted on a case-by-case basis to authors with no or insufficient funds. Such waivers or discounts can be requested after you have clicked View Publication Charges and a decision will normally be made within two working days.

Submission of the article to the journal can be completed once the payment method has been agreed. Any applicable APC can be paid after editorial acceptance and must be paid prior to publication.

APCs for articles submitted from EU countries are subject to VAT (Value Added Tax). EU customers must supply their VAT Number to be exempt from VAT. UK Customers are not exempt from VAT. APCs for articles submitted from Japan are subject to JCT (Japanese Consumption Tax). If you choose to pay by a method other than by credit card, an administration surcharge will be applied. For more information, see our [article processing charge FAQ](#).
